HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES IN CANADA - 1960 (1)

Prepared by the Dominion Bureau of Statistics with the assistance of provincial health authorities, the List of Hospitals and Related Institutions and Facilities covers all recognized Canadian hospitals and related institutions and facilities which were in operation at any time during 1960.

Related institutions and facilities, shown in a separate section by province, comprise infirmaries; nursing homes; rest homes; homes for the aged, the blind or the senile; facilities which provide insured services under the Federal-Provincial hospital insurance programme; and smaller private 'hospitals' which do not appear to have available the qualified personnel, facilities, and services which are normally required in hospital operation. Explanatory notes on columnar headings and classification definitions follow.

LOCATION - postal address; street address also shown in the larger cities.

NAME - official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

GenU	General unit
CDU	Communicable diseases unit
Chru	Chronic unit
NS	Approved school of nursing
PsU	Psychiatric unit
TBU	Tuberculosis unit

CATEGORY - Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g. veterans, Indians, sick mariners, personnel of the armed services).

- Private (Pte) - those hospitals which are established as profit-making enterprises and are not obligated to accept indigents; also some hospitals which are owned by religious or other bodies, and provide service exclusively to their members or adherents.

- Public (Pub) - those hospitals which depend, in part at least, on public funds for support, are obligated to accept medically indigent patients, and are recognized as "public hospitals" by the provinces in which they are located.

TYPE OF SERVICE - classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital comprising two or more specialized units of comparable size is classified as "miscellaneous". The following abbreviations have been used:

CD	Communicable diseases hospital
Chr	Chronic diseases hospital
Conv	Convalescent hospital
Gen	General hospital
Mat	Maternity hospital
Ment	Mental hospital
Misc	Miscellaneous hospital (not otherwise classifiable)
Orth	Orthopaedic hospital
TB	Tuberculosis hospital

OWNERSHIP - as determined by registration of deed or lease. The following abbreviations have been used:

DND	Department of National Defence
DNHW	Department of National Health and Welfare
DVA	Department of Veterans Affairs
Lay	Lay corporation or individual (s)
Mun	Municipal (including county, hospital district, and union of municipalities)
Rel	Religious denomination
Prov	Provincial or Territorial

CAPACITY - as determined by application of standards, under provincial responsibility; suggested minimum standards are circulated by the Dominion Bureau of Statistics, but where a provincial standard provides more square feet per bed than the federal standard, the provincial standard applies; in Newfoundland only, normal bed complement, rather than actual rated capacity, has been used for the majority of the hospitals.

LIST OF CANADIAN HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES - 1964

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the cooperation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at December 31, 1964.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown separately for each province. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 63. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address; street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown within the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some hospitals are owned by religious or other bodies and provide service exclusively to their members or adherents.

Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital comprising two or more specialized units of comparable size is classified as "miscellaneous". The following abbreviations have been used:

CD	Communicable diseases hospital
Chr	Chronic diseases hospital
Conv	Convalescent hospital
Gen	General hospital
Ger	Geriatric hospital
Mat	Maternity hospital
Ment	Mental hospital
Misc	Miscellaneous hospital (not otherwise classifiable)
Orth	Orthopaedic hospital
Rehab	Rehabilitation hospital
TB	Tuberculosis hospital

OWNERSHIP - The owner of the hospital is the person, group of persons, agency, or corporate body, in whose name the lease to the real estate is held, or if there is no lease, the registered owner according to the deed.

CRCS	Canadian Red Cross Society
DND	Department of National Defence
DNHW	Department of National Health and Welfare
DVA	Department of Veterans Affairs
Ind	Industrial
Lay	Lay corporation or individual(s)
Mun	Municipal (including county, hospital district and union of municipalities)
Rel	Religious denomination
Prop	Proprietary
Prov	Provincial or Territorial

CAPACITY - The number of beds or of bassinets for newborn that the hospital is designed to accommodate as at December 31 on the basis of established standards (for purposes of Federal-Provincial Hospital Construction Grant) of floor area per bed or bassinet.

LIST OF CANADIAN HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES - 1965

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at December 31, 1965.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown separately for each province. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 62. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address; street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown within the metropolitan area according to the boundaries of the 1961 Census of Canada. LIST OF CANADIAN HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES - 1966

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at December 31, 1966.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by the federal and/or a provincial government, or by a municipality duly authorized under the laws of the province. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown separately for each province. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 62. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address; street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown within the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". The following abbreviations have been used:

CD	Communicable diseases hospital
Chr	Chronic diseases hospital
Conv	Convalescent hospital
Gen	General hospital
Ger	Geriatric hospital
Mat	Maternity hospital
Ment	Mental hospital
Misc	Miscellaneous hospital (not otherwise classifiable)
Orth	Orthopaedic hospital
Rehab	Rehabilitation hospital
TB	Tuberculosis hospital

OWNERSHIP - The owner of the hospital is the person, group of persons, agency, or corporate body, in whose name the lease to the real estate is held, or if there is no lease, the registered owner according to the deed.

CRCS	Canadian Red Cross Society
DND	Department of National Defence
DNHW	Department of National Health and Welfare
DVA	Department of Veterans Affairs
Ind	Industrial
Lay	Lay corporation or individual(s)
Mun	Municipal (including county, hospital district and union of municipalities)
Prop	Proprietary
Prov	Provincial
Rel	Religious denomination
Terr	Territorial government

APACITY - The number of beds or of bassinets for newborn that the hospital is designed to accommodate as at December 31 on the basis of established standards (for purposes of Federal-Provincial Hospital Construction Grant) of floor area per bed or bassinet.

LIST OF CANADIAN HOSPITALS AND RELATED INSTITUTIONS AND FACILITIES - 1968

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1968.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 60. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address; street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown within the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". The following abbreviations have been used:

Alc	Hospital for Alcoholics	H M Def	Hospital for mental defectives
ASH	Home for the aged and senile	Mat	Maternity hospital
CD	Communicable diseases hospital	Ment	Mental hospital
Chr	Chronic diseases hospital	Misc	Miscellaneous hospital (not otherwise classifiable)
Conv	Convalescent hospital	Orth	Orthopaedic hospital
Dist Chld	Hospital for emotionally disturbed children	Ps H	Psychiatric hospital
Ep H	Epilepsy hospital	Rehab	Rehabilitation hospital
Gen	General hospital	TB	Tuberculosis hospital
Ger	Geriatric hospital		

OWNERSHIP - The owner of the hospital is the person, group of persons, agency, or corporate body, in whose name the lease to the real estate is held, or if there is no lease, the registered owner according to the deed.

CRCS	Canadian Red Cross Society
DND	Department of National Defence
DNHW	Department of National Health and Welfare
DVA	Department of Veterans Affairs
Ind	Industrial
Lay	Lay corporation
Mun	Municipal (including county, hospital district and union of municipalities)
Prop	Proprietary
Prov	Provincial
Rel	Religious organization
Terr	Territorial government

DESIGNATED CAPACITY - The number of beds or of bassinets that the hospital is designed to accommodate as at January 1 on the basis of established standards of floor area per bed or bassinet, i.e. Federal Hospital Construction Grant or Provincial standards if more restrictive.

LIST OF CANADIAN HOSPITALS AND RELATED
INSTITUTIONS AND FACILITIES - 1969

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1969.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 64. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

- Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care

LISTE DES HÔPITAUX CANADIENS ET DES ÉTABLISSEMENTS ET
INSTALLATIONS CONNEXES - 1969

La présente publication a été rédigée par la Section des institutions de la Division de la Santé nationale et du Bien-être social du Bureau fédéral de la statistique. Le Bureau remercie les autorités hospitalières et du bien-être social des provinces d'avoir aidé à la vérification et à la révision annuelle de cette liste qui donne le nombre d'hôpitaux et d'établissements connexes en activité au 1er janvier 1969.

Par définition, un hôpital est un établissement où des soins médicaux, chirurgicaux et (ou) d'obstétrique sont donnés aux malades hospitalisés, enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux. La liste des hôpitaux figurant dans la présente publication est donnée par ordre alphabétique suivant l'emplacement géographique.

Les établissements connexes se trouvent dans une section distincte. Ils comprennent les infirmeries, les postes infirmiers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards. Ils figurent aussi en ordre alphabétique suivant l'emplacement géographique.

Les installations sont groupées dans une même liste à la page 64. Il s'agit des installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la loi sur l'assurance-hospitalisation et les services diagnostiques.

EMPLACEMENT - Adresse postale: le nom de la rue et le numéro sont indiqués lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement de 1961 du Canada. L'abréviation M.A. est quelquefois utilisée pour "Zone Métropolitaine".

NOM - Nom officiel de l'établissement; l'article défini précède le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales de l'établissement sont indiquées entre parenthèses de la manière suivante:

ChrU	quartier des maladies chroniques
GenU	quartier pour les soins généraux
GerU	quartier de gériatrie
PsU	quartier de psychiatrie
RehabU	quartier de réadaptation
TBU	quartier pour les soins aux tuberculeux
NS	École reconnue de l'enseignement infirmier
RU	quartier résidentiel dans les établissements psychiatriques d'Ontario.

CATÉGORIE - Publics (Pub) - Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale, ces hôpitaux n'ont aucun but lucratif et acceptent tous les malades quels que soient leurs moyens.

- Privé (Pte) - Désigne les hôpitaux reconnus par la province comme "hôpitaux privés". En règle générale, n'y sont admis que les malades qui paient les soins dispensés aux tarifs fixés par la direction. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Fédéral (Fed) - Désigne les hôpitaux qui sont administrés par certains ministères fédéraux (Santé nationale et Bien-être, Affaires des anciens combattants et Défense nationale) au profit de personnes comme les anciens combattants, les

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1970.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in one single list and may be found on page 72. These facilities provide out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

- Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care

La présente publication a été rédigée par la Section des institutions de la Division de la Santé nationale et du Bien-être social du Bureau fédéral de la statistique. Le Bureau remercie les autorités hospitalières et du bien-être social des provinces d'avoir aidé à la vérification et à la révision annuelle de cette liste qui donne le nombre d'hôpitaux et d'établissements connexes en activité au 1er janvier 1970.

Par définition, un hôpital est un établissement où des soins médicaux, chirurgicaux et (ou) d'obstétrique sont donnés aux malades hospitalisés, enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux. La liste des hôpitaux figurant dans la présente publication est donnée par ordre alphabétique suivant l'emplacement géographique.

Les établissements connexes se trouvent dans une section distincte. Ils comprennent les infirmeries, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards. Ils figurent aussi en ordre alphabétique suivant l'emplacement géographique.

Les installations sont groupées dans une même liste à la page 72. Il s'agit des installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la loi sur l'assurance-hospitalisation et les services diagnostiques

EMPLACEMENT - Adresse postale: le nom de la rue et le numéro sont indiqués lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement de 1961 du Canada. L'abréviation M.A. est quelque fois utilisée pour "Zone Métropolitaine".

NOM - Nom officiel de l'établissement; l'article défini précède le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales de l'établissement sont indiquées entre parenthèses de la manière suivante:

ChrU	quartier des maladies chroniques
GenU	quartier pour les soins généraux
GerU	quartier de gériatrie
PsU	quartier de psychiatrie
RehabU	quartier de réadaptation
TBU	quartier pour les soins aux tuberculeux
NS	École reconnue de l'enseignement infirmier

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Institutions Section of the Health and Welfare Division at the Dominion Bureau of Statistics. The Bureau is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1971.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in two lists and may be found on pages 74-77. List one shows facilities for the treatment of emotionally disturbed children and list two shows facilities providing out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

- Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des institutions de la Division de la Santé nationale et du Bien-être social du Bureau fédéral de la statistique. Le Bureau remercie les autorités hospitalières et du bien-être social des provinces d'avoir aidé à la vérification et à la révision annuelle de cette liste qui donne le nombre d'hôpitaux et d'établissements connexes en activité au 1^{er} janvier 1971.

Par définition, un hôpital est un établissement où des soins médicaux, chirurgicaux et (ou) d'obstétrique sont donnés aux malades hospitalisés, enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux. La liste des hôpitaux figurant dans la présente publication est donnée par ordre alphabétique suivant l'emplacement géographique.

Les établissements connexes se trouvent dans une section distincte. Ils comprennent les infirmeries, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards. Ils figurent aussi en ordre alphabétique suivant l'emplacement géographique.

Les installations sont groupées sur deux listes aux pages 74-77. La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la loi sur l'assurance-hospitalisation et les services diagnostiques

EMPLACEMENT - Adresse postale: le nom de la rue et le numéro sont indiqués lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement de 1961 du Canada. L'abréviation M.A. est quelque fois utilisée pour "Zone Métropolitaine".

NOM - Nom officiel de l'établissement; l'article défini précède le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales de l'établissement sont indiquées entre parenthèses de la manière suivante:

ChrU	quartier des maladies chroniques
GenU	quartier pour les soins généraux
GerU	quartier de gériatrie
PsU	quartier de psychiatrie
RehabU	quartier de réadaptation
TBU	quartier pour les soins aux tuberculeux
NS	École reconnue de l'enseignement infirmier
RU	quartier résidentiel dans les établissements psychiatriques d'Ontario.

CATÉGORIE - Publics (Pub) - Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale, ces hôpitaux n'ont aucun but lucratif et acceptent tous les malades quels que soient leurs moyens.

- Privé (Pte) - Désigne les hôpitaux reconnus par la province comme "hôpitaux privés". En règle générale, n'y sont admis que les malades qui paient les soins dispensés aux tarifs fixés par la direction. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

- Fédéral (Fed) - Désigne les hôpitaux qui sont administrés par certains ministères fédéraux (Santé nationale et Bien-être, Affaires des anciens combattants et Défense nationale) au profit de personnes comme les anciens combattants, les Indiens, les marins malades, les membres des Forces armées, dont les soins hospitaliers sont à la charge de l'Etat.

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". The following abbreviations have been used:

GENRE DE SERVICE - Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement. Est classé comme "général" tout hôpital destiné au traitement d'une grande variété d'affections ou d'états pathologiques; est classé sous la catégorie "divers" tout hôpital offrant une combinaison de divers genres de services et ne pouvant être classé sous une des catégories suivantes, comme, par exemple, les postes infirmiers ou les hôpitaux éloignés. This publication was prepared in the Institutions Section of the Health and Welfare Division at Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1972.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind or the senile. They also are listed alphabetically according to location.

Facilities are presented in two lists and may be found on pages 74-79. List one shows facilities for the treatment of emotionally disturbed children and list two shows facilities providing out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION — Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME — Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parentheses thus:

ChrU	Chronic unit
GenU	General unit
GerU	Geriatric unit
PsU	Psychiatric unit
RehabU	Rehabilitation unit
TBU	Tuberculosis unit
NS	Approved school of nursing
RU	Residential units in Ontario mental hospitals

CATEGORY — Public (Pub) — hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

— Private (Pte) — hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

La présente publication a été rédigée par la Section des institutions de la Division de la Santé nationale et du Bien-être social de Statistique Canada. Le Bureau remercie les autorités hospitalières et du bien-être social des provinces d'avoir aidé à la vérification et à la révision annuelle de cette liste qui donne le nombre d'hôpitaux et d'établissements connexes en activité au 1^{er} janvier 1972.

Par définition, un hôpital est un établissement où des soins médicaux, chirurgicaux et (ou) d'obstétrique sont donnés aux malades hospitalisés, enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux. La liste des hôpitaux figurant dans la présente publication est donnée par ordre alphabétique suivant l'emplacement géographique.

Les établissements connexes se trouvent dans une section distincte. Ils comprennent les infirmeries, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards. Ils figurent aussi en ordre alphabétique suivant l'emplacement géographique.

Les installations sont groupées sur deux listes aux pages 74-79. La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la loi sur l'assurance-hospitalisation et les services diagnostiques.

EMPLACEMENT — Adresse postale: le nom de la rue et le numéro sont indiqués lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement 1961 du Canada. L'abréviation M.A. est quelque fois utilisée pour "Zone Métropolitaine".

NOM — Nom officiel de l'établissement; l'article défini précède le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales de l'établissement sont indiquées entre parenthèses de la manière suivante:

ChrU	quartier des maladies chroniques
GenU	quartier pour les soins généraux
GerU	quartier de gériatrie
PsU	quartier de psychiatrie
RehabU	quartier de réadaptation
TBU	quartier pour les soins aux tuberculeux
NS	École reconnue de l'enseignement infirmier
RU	quartier résidentiel dans les établissements psychiatriques d'Ontario.

CATÉGORIE — Publics (Pub) — Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale, ces hôpitaux n'ont aucun but lucratif, acceptent tous les malades quels que soient leurs moyens.

— Privé (Pte) — Désigne les hôpitaux reconnus par la province comme "hôpitaux privés". En règle générale, n'y sont admis que les malades qui paient les soins dispensés aux tarifs fixés par la direction. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, personnel of the armed services).

- Fédéral (Fed) - Désigne les hôpitaux qui sont administrés par certains ministères fédéraux (Santé nationale et Bien-être, Affaires des anciens combattants et Défense nationale) au profit de personnes comme les anciens combattants, les Indiens, les marins malades, les membres des Forces armées, dont les soins hospitaliers sont à la charge de l'Etat.

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; allied special hospitals include children, convalescent/rehabilitation, chronic/extended care and "other"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Hospitals Section of the Institutions and Manpower Sub-Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List reflects hospitals and related institutions in operation as at January 1, 1973.

A hospital is defined as an institution which is operated for the medical, surgical and/or obstetrical care of in-patients, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria. Hospitals are listed in this publication alphabetically according to location.

Related institutions are shown in a separate section. They include infirmaries, nursing homes, rest homes, homes for the aged, the blind and the senile. They are listed alphabetically according to location.

Facilities are presented in two lists and may be found on pages 73-77. List one shows facilities for the treatment of emotionally disturbed children and list two shows facilities providing out-of-hospital insured services according to the Hospital Insurance and Diagnostic Services Act.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1961 Census of Canada. The abbreviation M.A. is sometimes used for Metropolitan Area.

NAME - Official name of institution; definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU Psychiatric unit
TBU Tuberculosis unit
NS Approved school of nursing
RU Residential units in Ontario mental hospitals

CATEGORY - Public (Pub) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit, and accepts all patients regardless of their ability to pay.

- Private (Pte) - hospitals recognized by the province as a "private hospital". Such a hospital generally restricts its admissions to patients paying for the care provided at rates determined by the management. Some of these are owned by religious or other bodies and provide service exclusively to their members or adherents.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Sous-division des institutions et de la main-d'oeuvre, Division de la Santé et du Bien-être, Statistique Canada. Le Bureau remercie les autorités hospitalières et du bien-être social des provinces d'avoir aidé à la vérification et à la révision annuelle de cette liste qui donne le nombre d'hôpitaux et d'établissements connexes en activité au 1^{er} janvier 1973.

Par définition, un hôpital est un établissement où des soins médicaux, chirurgicaux et (ou) d'obstétrique sont donnés aux malades hospitalisés, enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux. La liste des hôpitaux figurant dans la présente publication est donnée par ordre alphabétique suivant l'emplacement géographique.

Les établissements connexes se trouvent dans une section distincte. Ils comprennent les infirmeries, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards. Ils figurent en ordre alphabétique suivant l'emplacement géographique.

Les installations sont groupées sur deux listes aux pages 74-79. La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la loi sur l'assurance-hospitalisation et les services diagnostiques.

EMPLACEMENT - Adresse postale: le nom de la rue et le numéro sont indiqués lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement de 1961 du Canada. L'abréviation M.A. est quelquefois utilisée pour "Zone Métropolitaine".

NOM - Nom officiel de l'établissement; l'article défini précède le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales de l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU quartier de psychiatrie
TBU quartier pour les soins aux tuberculeux
NS école reconnue de l'enseignement infirmier
RU quartier résidentiel dans les établissements psychiatriques d'Ontario.

CATÉGORIE - Publics (Pub) - Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale, ces hôpitaux n'ont aucun but lucratif, acceptent tous les malades quels que soient leurs moyens.

- Privé (Pte) - Désigne les hôpitaux reconnus par la province comme "hôpitaux privés". En règle générale, n'y sont admis que les malades qui paient les soins dispensés aux tarifs fixés par la direction. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Federal (Fed) - those hospitals which are administered by certain federal government departments (National Health and Welfare, Veterans Affairs, and National Defence) for the benefit of persons whose hospital care is the responsibility of the central government (e.g., veterans, Indians, sick mariners, e.g., personnel of the armed services).

- Fédéral (Fed) - Désigne les hôpitaux qui sont administrés par certains ministères fédéraux (Santé nationale et Bien-être, Affaires des anciens combattants et Défense nationale) au profit de personnes comme les anciens combattants, les indiens, les marins malades, les membres des forces armées, dont les soins hospitaliers sont à la charge de l'Etat.

TYPE OF SERVICE - Classification is according to the predominant type of treatment and care provided by the institution; a hospital with facilities to treat a wide range of diseases or conditions is classified as "general"; allied special hospitals include children, convalescent/rehabilitation, chronic/extended care and "other"; a hospital which provides a combination of various types of service and cannot be classified in any of the following categories (such as nursing stations or outpost hospitals) is classified as "miscellaneous". Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

The reader's attention is drawn to the fact that not all of the collected and tabulated data appear in published form. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Hospitals Section of the Health and Welfare Division of Statistics Canada.

¹ In addition to these publications, the Health Manpower Section of the Health and Welfare Division prepares and publishes a number of annual and occasional publications dealing with health manpower.

PRÉFACE

La Section des hôpitaux de la Division de la santé et du bien-être de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux et pour tuberculeux du Canada. Statistique Canada publie onze bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Voici la liste des publications sur les hôpitaux actuellement disponibles¹:

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Nous attirons l'attention du lecteur sur le fait que Statistique Canada ne publie pas toutes les données recueillies et totalisées. Pour tout renseignement sur les données inédites ou sur les données de ce bulletin, s'adresser à la Section des hôpitaux de la Division de la santé et du bien-être, Statistique Canada.

¹ En plus de ces bulletins, la Section de la main-d'oeuvre de la Division de la santé et du bien-être rédige et publie un certain nombre de publications annuelles et hors série sur le personnel sanitaire.

Le statisticien en chef du Canada.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Hospitals Section of the Health and Welfare Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital and welfare authorities for their assistance in the annual scrutiny and revision of this List. The List includes hospitals and related institutions in operation as at January 1, 1974.

A HOSPITAL - is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria.

RELATED INSTITUTIONS - include infirmaries, nursing homes, rest homes, homes for the aged, the blind and the senile and are shown in a separate section.

FACILITIES - are presented in two lists on pages 85 and 89. The first list shows "Facilities for the treatment of emotionally disturbed children" and the second list shows "Facilities for the provision of out-of-hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

Hospitals, Related Institutions and Facilities are listed alphabetically according to location.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for Metropolitan Area.

NAME - Official name of institution: definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU Psychiatric unit
TBU Tuberculosis unit
NS Approved school of nursing
RU Residential units in Ontario mental hospitals

CATEGORY - Public (Pub. incl. Voluntary, Provincial and Municipal) - hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

- Proprietary (Prop) - hospitals recognized by the province as a "proprietary hospital". These hospitals are owned by an individual or by a private organization and operated for a profit.

- Federal (Fed) - hospitals owned by a department or agency of the Government of Canada and operated on a non-profit basis. Operation will generally be the responsibility of one of the departments or agencies, e.g. Veterans Affairs, Health and Welfare Canada, National Defence or Atomic Energy of Canada.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Division de la santé et du bien-être de Statistique Canada. Statistique Canada remercie les autorités hospitalières et de bien-être social provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux et établissements connexes en activité au 1^{er} janvier 1974.

HÔPITAL - Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint, et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoria pour tuberculeux.

LES ÉTABLISSEMENTS CONNEXES - comprennent les infirmières, les foyers, les maisons de repos, et les hospices pour les personnes âgées, les aveugles et les vieillards; leur liste se trouve dans une section distincte du présent rapport.

LES INSTALLATIONS - sont réparties en deux listes (pages 85 et 89). La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de l'assurance-hospitalisation et les services diagnostiques.

Les hôpitaux, les établissements connexes et les installations sont inscrits par ordre alphabétique selon l'emplacement.

EMPLACEMENT - Adresse postale: le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

NOM - Nom officiel de l'établissement; l'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU quartier de psychiatrie
TBU quartier pour les soins aux tuberculeux
NS école reconnue d'enseignement infirmier
RU quartier résidentiel dans les établissements psychiatriques de l'Ontario.

CATÉGORIE - Public (Pub. - comprend les hôpitaux provinciaux, municipaux et les hôpitaux privés sans but lucratif. Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale ces hôpitaux n'ont aucun but lucratif.

- Privé, à but lucratif (Prop) - Désigne les hôpitaux reconnus par la province comme hôpitaux privés à but lucratif. Ces hôpitaux appartiennent à un particulier ou à un organisme privé et sont exploités en vue de bénéfices. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et dispensent des soins qu'à leurs membres ou adhérents.

- Fédéral (Fed) - Hôpitaux, sans but lucratif, appartenant à un ministère ou à un organisme du gouvernement fédéral. En général les activités des hôpitaux sont soumises au contrôle d'un ministère ou d'un organisme (par exemple: les Affaires des anciens combattants, Santé et bien-être social Canada, la Défense nationale, ou l'Énergie atomique du Canada).

TYPE OF SERVICE — Classification is according to the predominant type of treatment and care provided by the institution.

A hospital, classified as "General", provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases, or injuries, and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (incl. convalescent), "Extended care" (incl. chronic), and "Other" (e.g. cancer, maternity, cardiology, orthopedic hospitals).

Nursing Stations, Out-post hospitals and those Nursing Homes temporarily listed in Schedule A of the Hospital Insurance Agreement are classified as "Miscellaneous".

In the Province of Quebec, some institutions are designated as "Centres d'accueil". (Reception Centres).
There are 4 classes of "Centres d'accueil":

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

The first part of this List shows those "Centres d'accueil" which are part of another institution.

The second part of this List shows the independent "Centres d'accueil".

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatrique" "de réadaptation" (et de convalescence), "de soins prolongés" (et pour malades chroniques) et "autres" (par exemple: les hôpitaux anticancéreux, les maternités, les hôpitaux de cardiologie ou orthopédiques).

Sont classés sous la catégorie "divers", les postes infirmiers, les hôpitaux éloignés, et les foyers temporairement inclus dans le tableau A des Accords sur l'assurance-hospitalisation.

De plus, dans la province de Québec il y a quatre classes de centres d'accueil:

- (a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- (b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- (c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et

Les centres d'accueil qui font partie d'un autre établissement sont énumérés dans la première partie de cette liste.

PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals, mental institutions and tuberculosis sanatoria operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and eleven annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The current list of publications specifically related to hospitals is as follows:

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data, and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

The reader's attention is drawn to the fact that not all of the collected and tabulated data appear in published form. Inquiries with respect to data of this nature or to data contained in this publication are invited and should be forwarded to the Hospitals Section of the Health Division of Statistics Canada.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux et pour tuberculeux du Canada. Statistique Canada publie onze bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Voici la liste des publications sur les hôpitaux actuellement disponibles:

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Nous attirons l'attention du lecteur sur le fait que Statistique Canada ne publie pas toutes les données recueillies et totalisées. Pour tout renseignement sur les données inédites ou sur les données de ce bulletin, s'adresser à la Section des hôpitaux de la Division de la santé, Statistique Canada.

Le statisticien en chef du Canada,

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Hospitals Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this List. The List includes hospitals in operation as at January 1, 1975.

A HOSPITAL - is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions as well as tuberculosis sanatoria.

RELATED FACILITIES - are presented in two lists on pages 61 and 65. The first list shows "Facilities for the treatment of emotionally disturbed children" and the second list shows "Facilities for the provision of out-of-hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

Hospitals and Related Facilities are listed alphabetically according to location.

LOCATION - Postal address: street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for Metropolitan Area.

NAME - Official name of institution: definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU Psychiatric unit
TBU Tuberculosis unit
NS Approved school of nursing
RU Residential units in Ontario mental hospitals

CATEGORY - Public (Pub. incl. Voluntary, Provincial and Municipal) - Hospitals recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

- Proprietary (Prop.) - Hospitals recognized by the province as a "proprietary hospital". These hospitals are owned by an individual or by a private organization and operated for a profit.

- Federal (Fed.) - Hospitals owned by a department or agency of the Government of Canada and operated on a non-profit basis. Operation will generally be the responsibility of one of the departments or agencies, e.g. Veterans Affairs, Health and Welfare Canada, National Defence or Atomic Energy of Canada.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. La liste comprend les hôpitaux en activité au 1^{er} janvier 1975.

HÔPITAL - Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint, et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques et les sanatoriums pour tuberculeux.

LES INSTALLATIONS CONNEXES - sont réparties en deux listes (pages 61 et 65). La première liste indique les installations pour le traitement des enfants souffrant de troubles émotifs et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Les hôpitaux et les installations connexes sont inscrits par ordre alphabétique selon l'emplacement.

EMPLACEMENT - Adresse postale: le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

NOM - Nom officiel de l'établissement; l'article définit précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU quartier de psychiatrie
TBU quartier pour les soins aux tuberculeux
NS école reconnue d'enseignement infirmier
RU quartier résidentiel dans les établissements psychiatriques de l'Ontario

CATÉGORIE - Public (Pub. - comprend les hôpitaux provinciaux, municipaux et les hôpitaux privés sans but lucratif) - Désigne les hôpitaux reconnus par la province comme "hôpitaux publics". En règle générale ces hôpitaux n'ont aucun but lucratif.

- Privé, à but lucratif (Prop.) - Désigne les hôpitaux reconnus par la province comme hôpitaux privés à but lucratif. Ces hôpitaux appartiennent à un particulier ou à un organisme privé et sont exploités en vue de bénéfices. Certains de ces hôpitaux appartiennent à des communautés religieuses ou à d'autres organismes et ne dispensent des soins qu'à leurs membres ou adhérents.

- Fédéral (Fed.) - Hôpitaux, sans but lucratif, appartenant à un ministère ou à un organisme du gouvernement fédéral. En général les activités de ces hôpitaux sont soumises au contrôle d'un ministère ou d'un organisme (par exemple: les Affaires des anciens combattants, Santé et bien-être social Canada, la Défense nationale ou l'Énergie atomique du Canada).

TYPE OF SERVICE — Classification is according to the predominant type of treatment and care provided by the institution.

A hospital, classified as "General", provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases, or injuries, and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (incl. convalescent), "Extended care" (incl. chronic), and "Other" (e.g. cancer, maternity, cardiology, orthopedic hospitals).

Nursing Stations, Outpost hospitals and those Nursing Homes temporarily listed in Schedule A of the Hospital Insurance Agreement are classified as "Miscellaneous".

In the Province of Quebec, some institutions are designated as "Centres d'accueil". (Reception Centres).

There are 4 classes of "Centres d'accueil":

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

This List shows those "Centres d'accueil" which are part of another institution.

The following abbreviations have been used for designating the "type of service":

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatrique" "de réadaptation" (et de convalescence), "de soins prolongés" (et pour malades chroniques) et "autres" (par exemple: les hôpitaux anticancéreux, les maternités, les hôpitaux de cardiologie ou orthopédiques).

Sont classés sous la catégorie "divers", les postes infirmiers, les hôpitaux éloignés, et les foyers temporairement inclus dans le tableau A des Accords sur l'assurance-hospitalisation.

De plus, dans la province de Québec il y a quatre classes de centres d'accueil:

- (a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- (b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- (c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- (d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals and mental institutions operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and six annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The reader's attention is drawn to the fact that, beginning with the reporting year 1973, Volumes I, II and III have been condensed and combined into one volume – *Volume I – Hospital Statistics: Beds, Services and Personnel*, Catalogue 83-227. In a similar manner, Volumes IV, V and VI have become *Volume II – Hospital Statistics: Expenditures, Revenues and Balance Sheets*, Catalogue 83-228 and Volume VII – has become *Volume III – Hospital Statistics: Indicators*, Catalogue 83-229. Data no longer published in these reports are still available on request, along with other non-published, but collected and tabulated data.

PETER G. KIRKHAM,

Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux du Canada. Statistique Canada publie six bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Nous attirons l'attention du lecteur sur le fait qu'à partir de 1973, les volumes I, II et III ont été condensés et fusionnés en un volume: *volume I – Statistique hospitalière: lits, services et personnel*, n° 83-227 au catalogue. De même les volumes IV, V et VI deviennent: *volume II – Statistique hospitalière: dépenses, revenus et bilan*, n° 83-228 au catalogue. Le volume VII devient: *volume III – Indicateurs*, n° 83-229 au catalogue. Les données qui n'apparaissent plus dans nos publications sont tout de même recueillies et tabulées et sont disponibles sur demande.

Le statisticien en chef du Canada,

PETER G. KIRKHAM.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared in the Hospitals Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. **The list includes hospitals in operation as at January 1, 1976.**

Hospital

Is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services, and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

Related Facilities

Are presented in two lists on pages 63 and 68. The first list shows "facilities for the treatment of emotionally disturbed children" and the second list shows "facilities for the provision of out of hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

Hospitals and related facilities are listed alphabetically according to location.

Location

Postal address — Street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for Metropolitan Area.

Name

Official name of institution — Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU — Psychiatric unit
TBU — Tuberculosis unit
NS — Approved school of nursing.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. **La liste comprend les hôpitaux en activité au 1^{er} janvier 1976.**

Hôpital

Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint, et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Les installations connexes

Sont réparties en deux listes (pages 63 et 68). La première liste indique les installations pour le traitement des enfants affectivement perturbés et la seconde liste énumère les installations qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Les hôpitaux et les installations connexes sont inscrits par ordre alphabétique selon l'emplacement.

Emplacement

Adresse postale — Le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalités distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

Nom

Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU — Quartier de psychiatrie
TBU — Quartier pour les soins aux tuberculeux
NS — École reconnue d'enseignement infirmier.

Category

Public (including voluntary, provincial and municipal) — Applies to a hospital recognized by the province as a “public hospital”. Such a hospital generally is not operated for profit.

Proprietary — Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the province as a “proprietary hospital”.

Federal — Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Catégorie

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux) — Hôpital reconnu par la province comme “public”. Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Privé à but lucratif — S'applique aux hôpitaux reconnus par la province comme “privés à but lucratif”; il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral — Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

A hospital classified as "general", provides **primarily** of the diagnosis and short-term treatment of patients for a wide range of diseases, or injuries, and is not restricted to a specific age-group or sex.

Allied special hospitals include "pediatric", "rehabilitation" (including convalescent), "extended care" (including chronic), and "other" (e.g., cancer, maternity, cardiology, orthopedic hospitals).

Nursing Stations, Outpost Hospitals and those Nursing Homes temporarily listed in Schedule A of the Hospital Insurance Agreement are classified as "miscellaneous".

In the province of Quebec, some institutions are designated as *Centres d'accueil* (reception centres).

There are four classes of *Centres d'accueil*:

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

This list shows those *Centres d'accueil* which are part of another institution.

The following abbreviations have been used for designating the "type of service":

Alc.	Hospital for alcoholics
Ash.	Home for the aged and senile
C.A.	<i>Centre d'accueil</i> (reception centre)
Card.	Cardiology hospital or institute

Genre de service

Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement.

Un hôpital "général" offre **principalement** des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatrique" "de réadaptation" (et de convalescence), "de soins prolongés" (et pour malades chroniques) et "autres" (par exemple: les hôpitaux anticancéreux, les maternités, les hôpitaux de cardiologie ou orthopédiques).

Sont classés sous la catégorie "divers", les postes infirmiers, les hôpitaux éloignés, et les foyers temporairement inclus dans le tableau A des Accords sur l'assurance-hospitalisation.

Dans la province de Québec ces établissements sont reconnus comme centres d'accueil.

Il y a quatre classes de centres d'accueil:

- a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

Les centres d'accueil qui font partie d'un autre établissement sont énumérés dans cette liste.

Voici les abréviations utilisées pour désigner le "genre de service":

PREFACE

An extensive array of hospital statistics relating to facilities available, services provided, personnel employed, educational facilities and finances of general and allied special hospitals and mental institutions operating in Canada is prepared by the Hospitals Section of the Health Division of Statistics Canada. A series of one quarterly and six annual reports are published, to provide users with a comprehensive presentation of these statistics.

Statistics Canada wishes to express its indebtedness to the individual hospitals across the nation which have prepared and submitted data for inclusion in this national statistical program; to the provincial hospital plan authorities for the collection of the data and; to the provincial hospital associations and the Canadian Hospital Association in their promotion of uniform accounting and recording practices.

Statistics on hospitals have been compiled by Statistics Canada since 1931 and have since been published in varying degrees of detail. The reader's attention is drawn to the fact that, beginning with the reporting year 1973, Volumes I, II and III have been condensed and combined into one volume – *Volume I – Hospital Statistics: Beds, Services and Personnel*, Catalogue 83-227. In a similar manner, Volumes IV, V and VI have become *Volume II – Hospital Statistics: Expenditures, Revenues and Balance Sheets*, Catalogue 83-228 and Volume VII – has become *Volume III – Hospital Statistics: Indicators*, Catalogue 83-229. Data no longer published in these reports are still available on request, along with other non-published, but collected and tabulated data.

PETER G. KIRKHAM,
Chief Statistician of Canada.

PRÉFACE

La Section des hôpitaux de la Division de la santé de Statistique Canada prépare un grand nombre de statistiques sur les installations disponibles, les services fournis, le personnel employé, l'équipement didactique et la situation financière des hôpitaux généraux et spéciaux divers et des hôpitaux pour malades mentaux du Canada. Statistique Canada publie six bulletins annuels et une série de bulletins trimestriels afin d'offrir aux utilisateurs des statistiques complètes dans ce domaine.

Statistique Canada remercie les hôpitaux canadiens qui ont préparé et présenté les données pour qu'on puisse les intégrer dans le cadre du programme national de statistique; les administrateurs provinciaux de l'assurance-hospitalisation pour la collecte des données; les associations hospitalières provinciales et l'Association canadienne des hôpitaux pour leur effort d'uniformisation de la comptabilité et de la tenue des registres.

Depuis 1931, Statistique Canada recueille les statistiques sur les hôpitaux et les présente dans des publications plus ou moins détaillées. Nous attirons l'attention du lecteur sur le fait qu'à partir de 1973, les volumes I, II et III ont été condensés et fusionnés en un volume: *volume I – Statistique hospitalière: lits, services et personnel*, n° 83-227 au catalogue. De même les volumes IV, V et VI deviennent: *volume II – Statistique hospitalière: dépenses, revenus et bilan*, n° 83-228 au catalogue. Le volume VII devient: *volume III – Indicateurs*, n° 83-229 au catalogue. Les données qui n'apparaissent plus dans nos publications sont tout de même recueillies et classées et sont disponibles sur demande.

Le statisticien en chef du Canada,

PETER G. KIRKHAM.

EXPLANATORY NOTES AND GLOSSARY

This publication was prepared by the Hospitals Section of the Health Division of Statistics Canada. Statistics Canada is grateful for the co-operation received from the provincial hospital authorities for their assistance in the annual scrutiny and revision of this list. Beginning with the 1977 publication, the list will include hospitals in operation as of April 1.

Hospitals and related facilities are listed alphabetically according to location.

Facilities for the provision of out of hospital insured services — A list of the "facilities for the provision of out of hospital insured services" as approved by the Hospital Insurance and Diagnostic Services Act.

Facilities for the treatment of emotionally disturbed children — The facilities for emotionally disturbed children, previously listed in this publication, will be listed in the "*Special Care Facilities, 1977*" (catalogue 83-221). The facilities which are part of a hospital are included in the "List of Canadian Hospitals and Related Facilities" and identified by (EDU).

A hospital — Is defined as an institution where patients are accommodated on the basis of medical need and are provided with continuing medical care and supporting diagnostic and therapeutic services and which is licensed or approved as a hospital by a provincial government, or is operated by the Government of Canada. This definition includes mental institutions.

Location — Postal address — Street address is shown in the larger cities. Hospitals in distinct municipalities which make up large metropolitan areas are shown with the metropolitan area according to the boundaries of the 1971 Census of Canada. The abbreviation M.A. is for Metropolitan Area.

Name — Official name of institution — Definite articles at the beginning of hospital names, even when correctly considered as part of the designations, have been omitted to facilitate reference; special facilities available in the institution indicated in parenthesis thus:

PsU — Psychiatric unit
TBU — Tuberculosis unit
NS — Approved school of nursing
EDU — Emotionally disturbed children's unit.

NOTES EXPLICATIVES ET TERMINOLOGIE

La présente publication a été rédigée par la Section des hôpitaux de la Division de la santé de Statistique Canada. Statistique Canada remercie les autorités hospitalières provinciales de l'avoir aidé dans la vérification et la révision annuelle de cette liste. Le répertoire comprend les hôpitaux en activité au 1^{er} avril, 1977.

Les hôpitaux et les établissements connexes sont inscrits par ordre alphabétique selon l'emplacement.

Établissements dispensant aux assurés des soins à l'extérieur de l'hôpital — Un répertoire des établissements qui dispensent aux assurés des soins à l'extérieur de l'hôpital en vertu de la Loi sur l'assurance-hospitalisation et les services diagnostiques.

Établissements pour la traitement des enfants affectivement perturbés — Le répertoire des établissements pour enfants affectivement perturbés qui, autrefois apparaissait dans cette publication sera désormais publié dans le "*Répertoire des établissements de soins spéciaux, 1977*" (n° 83-221 au catalogue). Les unités qui font partie d'un hôpital sont comprises dans la "Liste des hôpitaux Canadiens et établissements connexes" et indiqués par (EDU).

Hôpital — Par définition, un hôpital est un établissement qui reçoit des personnes requérant des soins médicaux et leur dispense de façon continue ces soins ainsi que les services diagnostiques et thérapeutiques d'appoint et qui est enregistré ou reconnu comme hôpital par une province ou administré par le gouvernement du Canada. Cette définition englobe les établissements psychiatriques.

Emplacement — Adresse postale — Le nom de la rue est indiqué lorsqu'il s'agit d'une grande ville. Dans le cas de municipalité distinctes formant une grande zone métropolitaine, l'adresse de l'hôpital est celle de la zone métropolitaine suivant les limites fixées par le recensement du Canada de 1971. L'abréviation M.A. est utilisée pour "zone métropolitaine".

Nom — Nom officiel de l'établissement — L'article défini précédant le nom de l'hôpital, même s'il doit normalement être considéré comme partie intégrante du nom, a été omis afin de faciliter les recherches; les installations spéciales dont dispose l'établissement sont indiquées entre parenthèses de la manière suivante:

PsU — Quartier de psychiatrie
TBU — Quartier pour les soins aux tuberculeux
NS — École reconnue d'enseignement infirmier
EDU — Quartier pour le traitement des enfants affectivement perturbés.

Category

Public (including voluntary, provincial and municipal) — Applies to a hospital recognized by the province as a "public hospital". Such a hospital generally is not operated for profit.

Proprietary — Applies to a hospital owned by an individual or by a private organization, operated for a profit and recognized by the province as a "proprietary hospital".

Federal — Applies to a hospital owned by a department or agency of the Government of Canada and operated on a non-profit basis.

Type of Service

Classification is according to the predominant type of treatment and care provided by the institution.

A hospital classified as "General" provides primarily for the diagnosis and short-term treatment of patients for a wide range of diseases or injuries and is not restricted to a specific age-group or sex.

Allied special hospitals include "Pediatric", "Rehabilitation" (including convalescent), "Extended care" (including chronic) and "Miscellaneous" (e.g., cancer, cardiology, neurology, outpost hospitals and nursing stations).

In the province of Quebec, some institutions are designated as *Centres d'accueil* (reception centres).

There are four classes of *Centres d'accueil*:

- (a) day-care centres that shall admit persons and provide them during part of the day with care and activities designed to promote their physical, intellectual and social development;
- (b) transition centres that shall admit persons deprived of their usual family surroundings who are obliged to seek temporary protective help;
- (c) rehabilitation centres that shall admit persons suffering from a major physical, intellectual, psychological or social handicap who require intensive rehabilitation or orientation for a limited period of time; and
- (d) home care centres that shall admit persons who, because of a lessening in their physical or mental capacity, are obliged to sojourn in protective residence.

Catégorie

Public (s'applique aux hôpitaux privés sans but lucratif, aux hôpitaux provinciaux et aux hôpitaux municipaux) — Hôpital reconnu par la province comme "public". Un tel hôpital ne vise ordinairement pas à réaliser des bénéfices.

Privé à but lucratif — S'applique aux hôpitaux reconnus par la province comme "privés à but lucratif"; il s'agit d'un hôpital qu'un particulier ou un organisme privé possède et exploite en vue de réaliser des bénéfices.

Hôpital fédéral — Hôpital appartenant à un ministère ou à un organisme du gouvernement du Canada et ne visant pas à réaliser des bénéfices.

Genre de service

Les hôpitaux sont classés suivant le genre principal de traitement et de soins dispensés par l'établissement.

Un hôpital "général" offre principalement des soins de courte durée (diagnostic et traitement) pour une grande variété d'affections et de blessures ou traumatismes, sans distinction d'âge et de sexe.

Les hôpitaux spécialisés comprennent les hôpitaux "pédiatriques", "de réadaptation" (comprend la convalescence), "de soins prolongés" (comprend les malades chroniques) et divers (par ex., les hôpitaux anticancéreux, de cardiologie, neurologiques, les hôpitaux éloignés et les postes infirmiers).

Dans la province de Québec certains établissements sont reconnus comme centres d'accueil.

Il y a quatre classes de centres d'accueil:

- a) les centres de garderie, qui reçoivent des personnes à qui ils offrent pendant une partie de la journée, des soins et un programme d'activités visant à promouvoir leur développement physique, intellectuel et social;
- b) les centres de transition, qui reçoivent des personnes qui, privées de leur milieu familial habituel, doivent recourir provisoirement à une ressource, de protection;
- c) les centres de réadaptation, qui reçoivent des personnes qui, à cause d'inadaptation majeure sur le plan physique, intellectuel, psychologique ou social, doivent bénéficier de services intensifs de réadaptation ou d'orientation pour une période définie; et
- d) les centres d'hébergement, qui reçoivent des personnes qui, en raison d'une diminution de leur autonomie physique ou psychique, doivent séjourner en résidence protégée.

This list shows those *Centres d'accueil* which are part of another institution.
